Standard CENTRI-SIFTER® Centrifugal Screener

The CENTRI-SIFTER® centrifugal screener separates solids from solids or slurries at high rates. Rotating paddles propel on-size particles or liquids through a cylinder of woven nylon monofilament or stainless wedgewire screen. Rotating paddles break up lumps and handle difficult-to-separate materials. Offered with numerous anti-blinding devices. Access door allows rapid inspection, washdown and screen changes. Available to industrial, 3-A, FDA, and BISSC sanitary standards, and in low-profile and twin configurations.

Options:

- Anti-blinding devices
- Bag Dump Station
- Clean-in-place (CIP)
- Twin centrifugal configuration
- Integral feeder
- Design, construction and finish to FDA, 3-A, BISSC, EEC and other sanitary standards
- Belt drive and Direct drive configurations
- Design, construction and finish to pharmaceutical specifications
