# Twin CENTRI-SIFTER® Separator

Kason twin CENTRI-SIFTER® models are designed for applications requiring exceptionally high capacities. These duplex units are available in a range of designs that double the capacity of single units. Twin models are equipped with a splitter to evenly divide the flow of incoming material, regardless of feed rate.

## Options:

- Anti-blinding devices
- Bag Dump Station
- Clean-in-place (CIP)
- Twin centrifugal configuration
- Design, construction and finish to FDA, 3-A, BISSC, EEC and other sanitary standards
- Belt drive and Direct drive configurations
